

**REMARKS**

Claims 21-31 are pending in the application. Claims 21-23 and 28 have been amended and new claim 31 has been added by the foregoing amendment. No new matter has been introduced as a result of this amendment.

Claims 21-30 stand rejected as allegedly failing to comply with the enablement requirement of 35 U.S.C. § 112, 1<sup>st</sup> paragraph.

In order to initiate (and, expedite) prosecution on the merits, claim 21 has been amended to remove a reference to the *predetermined threshold*. Support for the claims may be found in Specification (¶0014 for example).

In addition, conditional language (i.e. *if*) has been removed from the claims.

Favorable examination on the merits is requested. The Examiner is strongly urged to contact the undersigned representative to resolve any issues with respect to expediting the prosecution of this application.

Respectfully submitted,

Potomac Patent Group PLLC
